Education

University of Sussex, BSc in Computer Science	Sep 2024 – Present
International School Manila, IB Diploma Programme	Aug 2012 – May 2024
- Higher Level: Computer Science, Design Technology, Geography - Standard Level: English A Language & Literature, French B, Mathematics Analysis & Approaches	

Work Experience

Student Intern, PhilTech Inc., Philippines	Jun 2023 – Jul 2023
- Developed an ORM solution using Django and researched best practices for database management. - Collaborated on testing software modules and debugging, ensuring project stability. - Gained hands-on experience with Robotic Process Automation tools, specifically Automation Anywhere.	

Awards

Fine & Performing Arts Department Award: Service to the Arts, International School Manila	May 2024
Presented for outstanding contribution to the school's fine and performing arts events through technical expertise and leadership in event management.	
Design & Technology Department Award: IB Computer Science, International School Manila	May 2023
Awarded for exceptional performance in IB Computer Science, demonstrating proficiency in programming, algorithm development, and project execution.	

Projects

IB Extended Essay: Computer Science, International School Manila	Mar 2023 – Feb 2024
- Explored object detection algorithms conducting a comparative analysis, focusing on the efficiency and accuracy of YOLO and Faster R-CNN using the COCO dataset. - Navigated data collection challenges, opting for secondary data to mitigate potential errors and streamline the research process. - Identified situational best cases, acknowledging the contextual superiority of algorithms in fields like medicine and autonomous vehicles where efficiency and accuracy balance is crucial.	
CALICO Fall '23: Competition Entrant	Nov 2023
- Efficiently navigated a high-pressure, time-constrained environment, balancing speed and accuracy to solve sophisticated problems within a limited timeframe. - Demonstrated exceptional analytical skills by employing advanced data structures and algorithmic strategies, overcoming complex computational challenges.	
International Schools Coding Olympiad: Competition Entrant, International School Manila	Jun 2023
- Formulated a team of strategic thinkers during a virtual coding Olympiad, orchestrating a blend of mathematical and coding expertise to navigate complex challenges. - Engineered a seamless workflow that channeled individual strengths towards tackling a spectrum of problems, from straightforward to highly complex.	
3D Modelling Club: Student Assistant, International School Manila	Aug 2022 – Nov 2022
- Assisted in a 3D modeling project using Fusion 360 and Adobe Illustrator for precision and realism. - Developed a draft SketchUp product for successful integration into a larger workflow.	

IASAS Dance, Drama, & Tech: Playback , International School Manila	Nov 2023 – Mar 2024
- Managed sound effects for a 45-minute production, mastering over 120 QLab sound cues for "The Pearl" and enhancing its technical complexity. - Broadened technical expertise by exploring projections and contributing to lighting, showcasing adaptability and a comprehensive approach to theater production. - Engaged in extensive professional development, enriching my skills through workshops in sound design, stage management, and other critical technical theater disciplines.	
High School Play: Playback , International School Manila	Aug 2023 – Oct 2023
- Mastered QLab, enhancing the play's atmosphere with precise sound cues. - Balanced technical and creative needs, selecting sound effects to fit the directors' vision. - Assumed leadership, developing a cue synchronization script for smooth production flow.	
IASAS Film: Competition Entrant , International School Manila	Feb 2023 – Sep 2023
- Managed logistical aspects such as venue booking and coordination with actors. - Undertook the comprehensive development of a film project, from scriptwriting to final revisions, integrating critical feedback to refine the narrative.	
ICARE - Mad Travel Subic: Student Leader , International School Manila	Oct 2023 – Dec 2023
- Directed content creation, leading a team to produce engaging digital content, including interviews and promotional videos, for the Aeta community at Tingtingin Falls. - Championed sustainable tourism, focusing on preservation of local culture and promoting responsible tourist behavior through social media.	
Model United Nations: Press Corps Leader , International School Manila	Sep 2023
- Led a five-member team, utilizing Adobe suite for continuous content creation during a Model United Nations conference. - Pioneered ChatGPT integration, compensating for unplanned reduced writer pool, yielding 45 posts within a 15-hour window.	
ICARE - Baguio Bethesda: Student Leader , International School Manila	Oct 2022 – Dec 2022
- Orchestrated diverse sports activities fostering physical wellness and teamwork at Baguio Bethesda School. - Spearheaded assembly and restoration of educational furniture, enhancing the learning environment.	
Volunteering	
Sound Technician , Sussex Tech and Backstage Society	Sep 2024
Executed live sound mixing and setup for music events with minimal prior training, independently managing all aspects of audio and operation.	
Head Usher , International School Manila	Oct 2022 – May 2024
Led the ushering team during school events, ensuring smooth flow and crowd management for performances and exhibitions.	
Event Photographer , International School Manila	Oct 2022 – May 2024
Captured dynamic event photography for school-wide activities, focusing on key moments and promotional imagery.	
Skills	
Technical Skills: Java, Python, C++, Django, Data Structures, Algorithmic Thinking, AI, Neural Networks Creative Skills: QLab, Sound Design, Cinematography, Adobe Premiere Pro, Adobe Photoshop, Projection Soft Skills: Teamwork, Problem Solving, Workflow Management, Research, Planning, Self-Management
